

Woodcraft Camp

An overnight camp for serious-minded children. Not a 'survival' course, but one which will teach you how to live outdoors well and comfortably with minimal kit. Rig a tarp, under which you will spend the night; hone your skills with a fire-steel and learn to make fire using a traditional flint and steel; learn to make 'camp gadgets'; cook all your meals on a fire; use a sheath knife and learn about field hygiene

10am Mon 4th to 2pm Tue 5th Sept

£90 per child (all food included) - 12 children only

Suitable for children in Yr6+

This event is always over-subscribed. Priority given to Scouts/Guides or first-timers

The 'Bear Dog Woods' are a beautiful mixture of towering mature beech, light and airy larch and dense holly thickets. It's a wood which has been specifically managed to create a venue for exciting childhood adventures.

"I don't mean to be rude or anything, but this is WAY better than I had expected. It's brilliant! I've done loads of survival courses, but this is by far the best"

"Bear Dog Outdoor are like no-one else; they take outdoor activities to the next level"
