The 'Swampy Woods' are rightly regarded with love and excitement by dozens of local children—they are quite simply one of the most fantastic locations going. Seven acres of private woodland: a majestic beech clearing suddenly ends in a steep escarpment down to a swampy 'river'; cross the swamp and one is in acres of ferny thicket, untouched for 60 years and with the feel of primary jungle. Awash with hollows and nooks, this location is the stuff of childhood dreams.

"I just wanted to write and tell you what a wonderful day I had. The first thing she told me was... 'Mummy, I tried something I thought I couldn't do and did it'. Brilliant!" CB
