

Navigation Adventure

Being able to find your way by matching landmarks to a map is a real life skill, and one which is increasingly becoming lost as sat navs and GPSs become standard. Navigate through beautiful but disorientating woods, finding caches of food and learning survival skills en route.

15th December 10am to 3pm

£35 per child (lunch included) Suitable for children in Yrs 5-7

The woods to the southeast of Woodcote are stunning but well-known locally for being extremely disorientating. They are criss-crossed by a myriad of paths, not all of which are shown on the map. To hike from Woodcote to the Bear Dog Wood is not easy—one has to be able to use a compass, to understand contours and even to spot ancient field boundaries.

"Thank you! It is a huge honour to be a little part of your grand events and to see the enormous pleasure and experience of so many children"

"A HUGE thank you for making the day so amazing. He had a complete ball and came home beaming from ear to ear. His first question was "when can I go again Mummy?" so please let me know when the next courses are; he'll be there! He loved every moment. What a great concept and brilliantly executed - well done!"
