

# Woodland Tools and Skills

**Spend a day in the fabled 'Swampy Woods'; learn to use sheath knives, axes and saws safely and with confidence; improve your survival skills**

**Wednesday 15<sup>th</sup> February 10am to 3pm**

**£25 per child (lunch included)**

**The 'Swampy Woods' are rightly regarded with love and excitement by dozens of local children and were recently used for our last set of Woodland Survival Days. This day is designed for children in Year 6 and above. In addition to improving skills such as fire-lighting and camp cooking, participants will receive instruction from experienced bushcraft instructors and will use knives, axes and saws in a safe, structured environment**

**"I don't mean to be rude or anything, but this is WAY better than I had expected. It's brilliant! I've done loads of survival courses, but this is by far the best"**

**"The day was great and much, much better than he had anticipated it being. He had thought he would be watching the adults do 'the dangerous stuff' and only he expected to do the fetching and carrying. He was very impressed that they were all expected to join in and do the activities for themselves with guidance and supervision from the leaders"**
